

INFORMATION FOR PROSPECTIVE CLIENTS

Your first appointment

With Brent Munro, Clinical Psychologist

The first appointment is a chance to talk about what has been happening, what is difficult now and what you would like help with.

Getting started

Contact Axis directly, or ask your referrer to send the referral. You can choose Perth CBD rooms or telehealth, where clinically appropriate. Axis will confirm the arrangements and provide the information you need before the appointment.

What to bring or have available

- Any relevant referral and treatment plan, and details of sessions already used with another clinician.
- A current medication list and relevant reports, if available.
- A few notes about what you would like help with, if that makes it easier.

Please tell Axis about access needs or a safe way to contact you. You can also ask questions about privacy, treatment or practical arrangements before booking.

Fees

Standard fee	Medicare benefit ¹	Usual gap ¹
\$280	\$149.05	\$130.95

¹ Eligible standard 50-minute individual consultations, in rooms (80010) or by video (91167). Before any Safety Net adjustment. Figures checked 6 September 2026.

You can attend privately without a referral. Medicare rebates require an eligible referral and available services. Private health benefits depend on your policy. Funded appointments need the relevant authorisation.

Telehealth and changes to appointments

For telehealth, choose a quiet, private place and have your phone nearby in case the connection drops. If you need to change an appointment, contact Axis early. The current cancellation terms are provided before the first booking is confirmed.
